Education

NIT Jaipur

B-Tech in Computer Science and Engineering

Dec 2020 – June 2024

CGPA - 7.44

Aklank Public School

Class 12th

July 2018 – April 2019

Percentage - 82.2

Bakhshi's Springdales Sr Sec School

Class 10th

July 2016 – April 2017

CGPA - 10

Relevant Coursework

- C Programming
- Data Structures
- Algorithm Analysis
- OOPS
- DBMS
- Operating System
- Software Engineering
- System Programming

Projects

NewsHub Pro | *ReactJS, Bootstrap*

January 2023

- Conceptualized, designed, and developed a dynamic news website featuring advanced filtering options, allowing users to access country-specific and category-based news content with ease.
- Engineered an intuitive user interface with features like infinite scrolling and a loading bar, enhancing the browsing experience and ensuring seamless content retrieval
- Implemented a robust filtering system, enabling users to customize their news feed by selecting specific countries and subcategories such as sports and entertainment, showcasing a keen focus on user personalization.
- Demonstrated proficiency in front-end development by creating a responsive and visually appealing platform, while also utilizing back-end technologies for efficient data retrieval and management, resulting in a high-performing website.

ProTask Organizer | *(HTML, CSS, Bootstrap, ExpressJs, Mongoose, EJS)*

May 2022

- Designed and developed a dynamic Full Stack Todo List application utilizing modern web technologies, including HTML5, CSS3, JavaScript, Express.js, and MongoDB, demonstrating proficiency in both front-end and back-end development.
- Implemented responsive user interfaces with a clean and intuitive design, providing an exceptional user experience across various devices and screen sizes, showcasing strong UI/UX design principles.
- Integrated user authentication and authorization features, utilizing industry-standard security practices, ensuring secure access and data protection for registered users.
- Employed RESTful API principles for efficient communication between the front-end and back-end, enabling seamless data retrieval, manipulation, and persistence, resulting in a highly performant application.

Technical Skills

Languages: C, C++, HTML-5, CSS-3, JavaScript

Technologies/Frameworks: Bootstrap, jQuery, ExpressJs, ReactJs

Databases: MySQL, MongoDB(Basic)

Developer Tools: VS Code, Atom, ThunderClient, Postman

Miscellaneous: Git, Github and Version Control

Achievements and Position of Responsibility

- * 3 STAR - 1694(max) at CodeChef
- * Secured 35th AIR in International Olympiad of Mathematics (IOM) in class 10th in 2017
- * Ex-Captain of Bakhshi's Springdales Sr. Sec School in class 10th in 2017
